

# ADULT EDUCATION WORKSHOPS

We promote programs that build stronger bonds between police and adults in the community, with special emphasis on driver safety, senior security and education.

## HOME SECURITY

Every day we read headlines and hear stories reminding us our street are not as safe as the used to be. It doesn't mean you should be afraid – just aware. It pays to be on guard. There are precautions you can take to minimize your chances of being a crime victim. Educating seniors about home security is a way to protect them and prevent crimes against them.
